

CHIIRO MORI

Toronto, ON | +1 (437) 348-2992 | chihiro.mori@mail.utoronto.ca | [linkedin.com/in/mori-chihiro](https://www.linkedin.com/in/mori-chihiro)

RESEARCH INTERESTS

LLM, Responsible AI, AI Innovation ecosystem, NLP (Large Language Models), and Citation Network Analysis.

TECHNICAL SKILLS

- **Languages:** Python (NumPy, Pandas, Scikit-learn, NLTK, FastAPI, Flask), TypeScript, SQL, R, JavaScript, HTML/CSS.
- **Developer Tools:** React (Next.js), Tailwind CSS, PostgreSQL, AWS, Docker, Git.
- **Data & ML:** Regression Analysis, Decision Tree Analysis, LightGBM, Exploratory Data Analysis (EDA), Social Network Analysis, NLP (Parse Trees).
- **Soft Skills:** Research Presentation, Cross-functional Collaboration, Fluent English & Native Japanese.

EDUCATION & AWARDS

University of Toronto, Trinity College | B.Sc. Computer Science | **GPA: 4.0/4.0** | *Expected June 2029*

- **Awards:** International Merit Admission Award (2025), JASSO Merit Scholarship (Japanese Government) (2025).
- **Relevant Coursework:** STA130 (Statistical Reasoning), CSC111 (Foundations of CS II).

RESEARCH & TECHNICAL EXPERIENCE

LLM Community Researcher (LLMATCH Season 4) | Matsuo-Iwasawa Lab, University of Tokyo | *May 2026 – Present*

- With the support of the lab's researchers, building a strong foundation in LLM research, conducting individual projects, and sharing my findings with the community in the selective LLMATCH Season 4 initiative.

Web Division Executive | University of Toronto Japan Network (UTJN) | *Jan 2026 – Present*

- Architected and maintained the official **UTJN website** using a full-stack architecture (**Next.js**, **FastAPI**, **PostgreSQL**); deployed via **Docker** on **AWS**.
- Collaborated across Marketing, Finance, and Social teams to translate organizational needs into scalable user-facing features.

Presenter | Trinity College Undergraduate Research Conference 2026 | *March 2026*

- Presented a research proposal: "Comparative Analysis of **AI Innovation Ecosystems**: A Citation Network Study of the **University of Toronto** and the **University of Tokyo**"

Global Consumer Intelligence Program Student | Matsuo Lab, University of Tokyo | *Aug 2025*

- Developed an end-to-end performance-prediction model using **LightGBM** on the **IBM HR**

Analytics Employee Attrition dataset.

- Engineered custom features, developed **employee performance-prediction model**, delivered a **data-driven talent development proposal** (Top 14% completion rate).

Guest Research Student | Sakata Lab, University of Tokyo | *May 2024 – Dec 2024*

- Research presentation 3x about “**Group simulation** in inquiry-based learning: optimal point between **diversity of members & uniqueness of group**”
- Learned computational social science approaches: **Linear Regression** and **Social Network Analysis**.

TECHNICAL PROJECTS

Healthcare Data Analysis (STA130) | University of Toronto | *Fall 2025*

- Co-led a research project for **Nucleus Independent Living**, analyzing gender-based cost disparities across **4,000+ patient records**.
- Applied R-based regression, decision tree, and visualizations (histograms, bar charts, scatter plots, & summary table) to identify the difference of healthcare costs over time between genders.

NLP Recommendation System (CSC111) | University of Toronto | *Winter 2026*

- Engineered a book recommendation engine in **Python** using **75 Project Gutenberg novels**.
- Extracted syntactic features (parse tree depth, lexical diversity) and built an interactive **Flask** interface with **Plotly**.

FriendLink | NewHacks 2025 (IEEE) | *Oct 2025*

- Built a social connection platform featuring a matching system and study rooms using **Python** and **Flask**.

PUBLICATIONS & TALKS

- **Publication:** *The Nikkei Digital Edition* (Aug 2021) – Essay on satellite technology and art.
- **Invited Speaker:** Benesse Route H Info Sessions (2025, 2026) – Presented on UofT admissions and JASSO scholarship.

WORK EXPERIENCE

- **Individualized Instructor**, Julius (Tokyo) – Tutored Math, English, Science, Social Science, & Japanese.
- **Attendant**, TeamLab Planets (Tokyo) – Guided both international & domestic visitors in English and Japanese. Ensured engaging and safe experience of guests in the immersive digital art exhibition.

EXTRACURRICULAR ACTIVITIES

Violin Performer | Arts and Culture LLC, Trinity College | *Sept 2025 – Present*

- Performed solo and ensemble pieces (*Spirited Away*, *Beauty and the Beast*) at college talent shows.

Jazz Violinist | Otsuma Tama Junior & Senior High School | *Feb 2024*

- Performed “Salut d’Amour (Jazz ver.)” in front of an audience of over 2,000 people.
